

Home Economics: Week 9/30/24-10/4/24

This week the students will be learning about baking, principles of baking, steps to baking success and analyzing recipe ingredients. The students will have the opportunity to discover the purpose of ingredients in baking, what happens during mixing and baking, and the guidelines for successful baking. Key vocabulary words are gluten and leavening agent. We will be making pigs in a blanket for our baking project this week.
