

My name is Tracey Yeager and I have over thirty years of teaching experience. I am highly qualified in both Elementary education and Early Childhood Education. I have taught everything from Junior Kindergarten to High School English. I have had the opportunity to teach in three different countries (Canada, Japan and the United States) and a variety of teaching situations such as a one room school house with twenty-six students in K through eighth grade as well as a Jesuit high school. When not teaching I enjoy reading, tent camping and travelling.
