

Home Economics Week of 10/28/24 - 11/1/24  
Mrs. Hilborn

This past week your student made and completed their name samplers and have learned the blanket stitch.

This week your student will learn how to cut a pattern out with material.

We will also be making a stuffed pumpkin from that material. Your student will have the opportunity to use the blanket stitch in order to sew their pumpkins. The students will also cut out shapes from felt and sew them on their pumpkins to decorate them.

We will have a fun week in home economics.
