

Junior High Math Week of October 21 - October 25

6th grade

Unit 4: Ratios

Focus for the week: 6th grade students will be analyzing data from different tables, identifying ratios and writing equations from ratio tables.

7th grade

Unit 3: Inequalities

Focus for the week: A review solving inequalities through the writing of inequalities from applicable situations. 7th grade students will also be preparing for the end of the unit exam on Friday.

8th grade

Unit 3: Linear Equations

Focus for the week: 8th grade students will be preparing for their end of unit exam. Focus: simplifying expressions, solving simple equations, solving more complex equations including equations with distributive property and equations with the variable on both sides of the equal sign.

Junior High Math Week of October 14 - October 18

6th grade

Unit 4: Ratios

Focus for the week: An introduction to ratios, comparing equivalent ratios and analyzing ratios in tables

7th grade

Unit 3: Inequalities

Focus for the week: A review of inequalities then solving one- and two-step inequalities

8th grade

Unit 3: Linear Equations

Focus for the week: Solving more complex equations including equations with distributive property and equations with the variable on both sides of the equal sign

Junior High Math Week of September 30 - October 4

6th grade

Mini Statistics Unit

Focus for the week: Analyzing data, calculating measures of central tendency, creating graphs and dot plots

7th grade

Mini Statistics Unit

Focus for the week: Analyzing data, calculating measures of central tendency, creating graphs and dot plots

8th grade

Unit 3: Linear Equations

Focus for the week: Mid-unit Review (simplifying expressions, distributive property, one step equations, two step equations and multi-step equations. Mid-unit assessment on Thursday

Junior High Math Week of September 23 - September 27

6th grade

Unit 3: Number Sense

Focus for the week: Unit Review - Test on Friday

7th grade

Unit 2: Expressions and Equations

Focus for the week: Unit Review - Test on Thursday

8th grade

Unit 3: Linear Equations

Focus for the week: Solving Multi-step equations, including equations with variables on both sides and special case equations.

Junior High Math Week of August 12 - August 16

6th grade

Unit 1: Decimal Operations

Focus for the week: Division of Whole Numbers and Numbers with Decimals

7th grade

Unit 1: Rational Number Operations

Focus for the week: Adding and Subtracting Signed Numbers'

8th grade

Unit 1: Real Number System

Focus for the week: Classifying and Comparing Real Numbers
