

JH Science, week of 2/24-2/28

6th Grade: **6.P1U1.2 and 6.P1U1.3**

We are completing our experiment as a class to demonstrate this (kinetic theory) with H<sub>2</sub>O, and learning how all matter is made up of atoms.

7th Grade: **7.L1U1.10**

We are learning about body systems, and how the body of an organism (plant or animal) works as a whole system to maintain life, and how they are similar and different.

8th Grade: **8.L4U1.11**

We are learning about Natural selection, and how it can affect a population over time.
