**Wednesday:** world, country, meet, meat, another, tripped, trip, list, people, wor, ea, m, ed, eo, v, ir, ur, w, ear

Her First Nurse Works Early

This coming week we will be working on addition in math, as well as word problems, expanded form, money, ordering numbers from least to greatest, measuring perimeter, finding missing digits, and triangle length measures.

We are working on learning multiplication facts, as your student need to know those for life.

Numberock videos on [www.youtube.com](http://www.youtube.com) are free and can help your student learn multiplication facts.

On Monday, August 12, your student has early release at 1 pm. Pick up will be where you drop your student off.

To contact me:

[Marguerite.mcpherson@fppsphoenix.net](mailto:Marguerite.mcpherson@fppsphoenix.net)

Or 602-870-6674 ext 503

Please feel free to send a text message any time.

Your students have Science and Social Studies with Mrs. Panthaky. Next week they will be learning about Globe Lines (Map Skills). In Science they will be studying Life Science, learning about plant life and discover if all bees make honey.

Thank you to the family that sent in a box of Kleenex and the Clorox wipes! We appreciate them VERY much!!!

Please DO sign off on your student's homework log each night to let us know that you did listen to your student read. We need them to NOT RUSH through the questions they need to answer each day (usually 3 questions). We can tell they are not taking their time when their answers do not fit with what they questions are.

Please let me know if your student needs more help with Math homework. I can help them before school or for 5-10 minutes during their lunch recess, which is 20 minutes long.
