## **Mrs. Watson**

This is Mrs. Watson's 19th year here at franklin. She taught PE and Home Economics/Health for 7 years. She also taught 4th grade for two years and this is her 10th year teaching fifth grade. She has three children who attended and graduated from 8th grade at Franklin school. She has worked with people with disabilities to help them get jobs. Her favorite thing about being a teacher is seeing the "light bulb go on" when someone finally understands something new. The look on their face that they "get it" gives her joy in teaching. The biggest challenge for fifth graders is learning what they need to know to move on to sixth grade; not just academics, but how to keep track of all their work, and get it all turned in on time.
